

Three Generations of Personalized Service

A Legacy of Shooting Innovation

We are looking forward to seeing you at the 2017 Ohio Sporting Clays Championship! This year's shoot will have a record attendance. Due to filling all openings in the Main Event and Preliminary Event in advance, we **have decided to add a 50 target Sub Gauge Fitasc event on Thursday, Friday, Saturday!** This event was not available on winscore until now. We hope that this addition will provide an opportunity for our subgauge shooters to try their hand at Fitasc.

Joe Scull will be setting the Main Event, Prelim, and Fitasc (Main & Sub Gauge) Layouts. Ed Prechal of Top Gun will take care of the Make A Break, Comp 5 Stand, Subgauge/Pump/SxS/Super Sporting Courses.

Please check out the [club map](#) that accompanies this letter. It provides reference to course and parking locations as well as vehicle travel. Please note that River Styx Rd is closed just south of the club due to bridge construction.

Due to the layout of the club and the limited parking at the center of the property, no cars, trucks, or trailers will be permitted beyond the designated parking areas. **Travel beyond there will be limited to carts and utility vehicles only!**

**Parking: 3605 Poe Road Entrance:** Parking areas are designated by gray barn and next to bird pens. A shuttle service will operate from these parking areas for shooters without a shooting cart or UTV. Golf Cart Rentals can be picked up at the front of the lodge. A limited number of carts will be available if not previously reserved. We cannot guarantee availability of carts for shooters without a deposit received prior to the event.

**6300 River Styx Entrance:** Parking areas are designated by Picnic Pavilions. RV/Trailer Camping is also available in these areas (No Electric or Water Service.) Shuttle service will be available.
