

Dear Shooters,

The Ohio Sporting Clays Association and our host club would like to enthusiastically thank you for attending the 27<sup>th</sup> annual Ohio Sporting Clays Championship. This year's Championship at the Hill 'n Dale Club in Medina, Ohio on August 9 – August 12, 2018 will feature many special events.

Hill 'n Dale and OSCA have worked very hard to ensure we have a venue that will make the State Championship the marquee shoot of the year in Ohio. We promise that this year's sporting clay event will be a bigger and better shoot than ever before. Lois Neely is again handling our scorekeeping, while renowned target setter Joe Scull will design the preliminary and main event courses for the weekend.

Our sponsors for this state championship now include:

Beretta USA	Lincoln Traps	Laporte Traps
Bud's Gun Shop	Fiocchi USA	Legacy Financial Associates
Briley	Browning	White Flyer Targets
Jaqua's Fine Guns	Ohio Anesthesia Group	Benelli USA
Miles Farmers Market	Kinetico	Ace Billing Group
Syren	Long Range	Beaver Excavating
Independence Excavating	Legend Group	JD Williamson Construction
Koly & Company	Dequinze & Bloom	DM Associates
Wild Ear	UBS	Lagerheads
	CLS Facility Services	

Friday offers a 100-bird Preliminary event, while 12 ga. FITASC rotations will be run all four days of the shoot. If that is not enough, 50-bird pump gun, side-by-side and small gauge events will be available for all interested shooters on Thursday, Friday and Saturday, with a Super Sporting event to be held on Sunday.

The 200 bird main event, set by Joe Scull, will begin Saturday and conclude on Sunday, with 100 targets each day. A registered NSCA classification five stand competition and practice five stand will be available throughout the event. Finally, we hope all of you can then join us for a free Saturday evening dinner party open to everyone. There will be tons of door prizes handed out on Saturday night. You must be present to win door prizes.

Enjoy the 27<sup>th</sup> annual Ohio Sporting Clays Championship!

Sincerely,  
OSCA Board
